NINTH ANNUAL REPORT

OF THE
COMMITTEE OF MANAGEMENT

OF THE

Geelong Infirmary and Benevolent Asylum

FOR

1860.

TO THE SUBSCRIBERS.

IN presenting the Ninth Annual Report of the Geelong Infirmary and Benevolent Asylum, the Committee of Management have a very pleasing duty to perform, inasmuch as, with the blessing of Almighty God, the Institution continues in a prosperous and satisfactory condition. Applications for its aid, both as regards in-patients and out-patients, have greatly increased, as will be observed by the following Statistics, and the Committee have been enabled to deal with such applications in a manner which, so far as they know, has given satisfaction to the Patients and to the Subscribers.

During the past year, 422 males, and 157 females, were admitted to the Infirmary; and as 42 remained in the Infirmary at the end of 1859, the number treated in the Infirmary during 1860 was 621. 24 males and 7 females, were admitted to the Benevolent Asylum; 39 remained at the end of the previous year; thus 70 persons received the aid which admission to the Benevolent Asylum affords; or 691 persons in all as residents. 406 were discharged cured, from the Infirmary; 85 were discharged much improved, though incurable, 66 died, and 54 remained at the end of the year. 12 died in the Benevolent Asylum, chiefly from decay of nature, (amongst them one who had been an inmate for eight years,); 27 left of their own accord, and 31 remained at the end of the year.

Thus 95 persons remained in the House on 1st January, 1861. The daily average number in the House in 1860 was 96. The admissions in 1860 were 165 more than in 1859. 712 out-patients, who attended 5230 times, also received the benefit of advice and medicine gratuitously.

The Rule to admit paying patients has been taken advantage of by some, but the Committee have been ever careful to see that no destitute patient suffered any inconvenience in consequence, and that no portion of the funds of the Subscribers was appropriated to the relief of such as could pay. The Committee believe that it will be desirable to continue to admit paying patients, but never to the exclusion of the destitute, or to infringe on the funds of the Charity.

There has been a gratifying decrease in the number of deaths as compared with last year, or any previous year; but the Committee still regret that it is desirable to remind Subscribers that the mortality is only increased when persons known to be on the point of death are sent for admission, not merely in cases of accident, the admission of which under any circumstances could not be avoided, but in cases of lingering disease.

A classified list of the diseases will as usual accompany this report, when printed, but it may be here mentioned that the most numerous forms of disease were:—Colonial Fever, 36; Rheumatic Fever, 13; Chronic Valvular Disease of Heart, 21; Dysentery, 22; Disease of Liver, 13; Chronic Rheumatism, 44; Stricture, 19; Debility, 24; Phthisis, 18. And there were 31 cases of wounds:—20 of Simple Fracture, and 4 of Compound Fracture; 20 of Contusion; and 29 of Ulcer.

The greatest number of deaths arose from Disease of the Heart, 9; Dysentery, 6; Disease of Liver, 6; Colonial Fever, 5; Apoplexy, 4; Acute Tuberculosis, 3; and Cancer, 3.

On the cost of maintenance of the Institution there has been a considerable comparative reduction on previous year's amounts; while in 1859 each patient cost on an average £9 7s., the average cost of each in 1860 was £7 0s. 4d.

The Receipts, including last year's Balance, were £6472 2s. 11d., and the expenditure £5617 6s. 4d., leaving an apparent

balance of £854 16s. 7d. ; apparent because about £250 is due on an Invoice of Drugs, to arrive from England, and a sum of £175 is the estimated cost of certain painting and repairs to the Building which cannot be avoided.

The expenditure includes £455 paid for a new iron Fence round the Grounds ; and £46 for laying out and planting a portion of the Garden. These works are so manifest an improvement, and were considered so necessary that the Committee confidently expect your approval of the expenditure.

Towards the end of the year, the Committee had doubts about being able to raise a sufficient sum to secure the whole of the Government grant, and appealed for collections from the various Churches, and the response, as will be seen by the Subscription Lists, was very liberal. Upwards of two hundred and forty settlers in the country were also written to, and requested to obtain Subscriptions from their men ; and some of these gentlemen returned handsome sums, as will also be seen by the lists. This appeal, however, was not so generally responded to as had been expected, men declining to contribute notwithstanding it is well known that a large number of the Patients come from Stations in the country. A timely contribution of £40 10s. per Mr. J. Dunoyer, from the Swiss residents in the neighbourhood, made up the balance necessary to obtain the Government Grant, and the Committee hope that next year, Country Subscriptions will increase, seeing that an earnest appeal has been made.

In accordance with a resolution at the last meeting, steps were taken to form a Library of voluntary contributed Books, and the Committee have to thank the Very Rev. Dean Hayes, Mr. George Wright, Mr. James Balfour, Mr. Stitt Jenkins, and the A. I. O. of Odd 'Fellows, and others for contributions, which have afforded the Patients much gratification.

At the last Annual Meeting, a resolution was passed to the effect that the Rules referring to Honorary Medical Officers should be altered so as to do away with the distinction of Physicians and Surgeons, and have them elected under the title of General Practitioners ; but a Meeting that was called for

the purpose of altering the Rules, lapsed, in consequence of a quorum not being present. Dr. Gunn and Mr. Pincott who were elected at the Annual Meeting, were consequently the only Honorary Medical Officers attached to the Institution during the year. Mr. Pincott, however, resigned some time since ; and Dr. Gunn has informed the Committee that he does not intend to offer himself for re-election. The thanks of the Committee were tendered to Mr. Pincott for his long and valuable services, and the Committee feel that Dr. Gunn's long services, require due recognition at your hands.

After mature deliberation, the Committee determined to recommend further Alterations in the Rules referring to the Honorary Medical Staff, as they felt that they were not proving of a nature tending to a harmonious management of the Patients by the Medical Staff. These alterations were submitted to you this evening, and you are aware of the result. It is hoped the Rules now adopted will work satisfactorily, as they have only been suggested to enhance the welfare of the Institution, without any other consideration whatever.

Mr. Henry Julian having obtained a better appointment, resigned the Resident Surgeonship, and Mr. David Boswell Reid was elected in his stead ; and, so far, has given satisfaction to the Committee.

In addition to his usual duties, Mr. Reid offered to give demonstrations in Anatomy and Practical Surgery for the instruction of young men wishing to study for the profession, and for others ; and the Committee, accepting Mr. Reid's offer, made arrangements to carry out the scheme. They hope that the legal difficulty which only prevents them, will soon be removed by the Legislature, and a useful feature of an Hospital's operations be added to this.

In concluding this Report, the Committee desire to bear testimony to the unwearied exertions to secure the welfare of the Institution, and the comfort and recovery of the Patients, of the several paid Officers, to whom they attribute, in a great measure, the present prosperity and success of the Institution.
